Professional Experience

Chromedia — April 2021 - February 2022 • 11 months

Frontend Software Engineer • **NextJS, Bootstrap, GraphQL + Apollo, Invision, JIRA**

- Developed a GraphQL frontend setup with Apollo, NextJS, and GraphQL-codegen
- Worked with designers, quality analysts, and a product manager for the implementation of features.
- Worked on multiple projects with Agile/Scrum using JIRA.

Secret Boxes & SCG Foundation — Oct 2020 - Dec 2020 • 3 months

Copy Writing + Frontend • **NextJS, Tailwind CSS, Figma, Clickup**

- Used ClickUp and Discord to manage tasks and update the team for new deployments.
- Implemented screens from Figma.
- Wrote 3 pages of copy writing and dev documentation on how the secret network platform works.

Jon Hitchkins — April 2021 - February 2022 • 11 months

Business Research + Fullstack Developer • **NextJS, Tailwind CSS, Strapi, MongoDB**

- Identified their strengths and weaknesses against their competitors using a SWOT analysis.
- Created a landing page for their properties and studio-type apartments.
- Used Strapi with MongoDB as the CMS and deployed it on Heroku.

Side Projects

Prioritizer — React, Recoil, Urql, Node + Prisma + Postgres

Tabbed kanban boards with recurring tasks and a dashboard for tracking your progress. Like ClickUp but with tabs and recurring tasks.

Shopee Compare — React, Redux, RTK, Material UI 5

Search, compare, bookmark, and share collections of products from Shopee

Volunteer — **ReactJS Philippines**

A social learning group where I help debug and critique projects. An active community where devs can freely discuss trends and share useful stuffs.

Education

BS Computer Science • 1.55 GWA/3.25 GPA

STI College Sta. Mesa

December 2020

Technologies I use daily

- Typescript
- GraphQL

Frontend

- React/NextJS
- Apollo or Urql, Redux
- Design systems with Tailwind CSS/Material UI/styled-components
- Yup + React-hook-form or Formik
- Jest, Storybook, Cypress, react-testing-library, msw

Backend

- NodeJS
- NestJS
- Prisma + Postgresql/MongoDB
- Firebase

Toolings

- Webpack or Vite
- zx scripting, VS code, Git, Linux, Docker
